

Mining Surveys (U.K.) Ltd.

ENVIRONMENTAL POLICY STATEMENT

Although Mining Surveys (UK) Ltd is only a small Company we recognise both our legal and moral requirements regarding all environmental issues.

We can confirm the Company's commitment to continuous improvement in managing environmental issues, including the proper management and monitoring of waste, the reduction of pollution and emissions, compliance with environmental legislation and environmental codes of practice, training for staff, and the monitoring of environmental performance.

Environmental Compliance Assessment

As part of our commitment we have undertaken a compliance assessment provided by Business Link. The results provide our Company with the information on the environmental regulations that are relevant to our business and guidance on what we need to do. A summary of results is attached below.

Environmental Aspect Assessment Checklist

The (**EAA**) provides for descriptions, recording and identification of risk factors, and setting target objectives.

1. Emissions to air

In the normal undertaking of our surveying and associated services there are no emissions to air.

2. Emissions to water

In the normal undertaking of our surveying and associated services there are no emissions to water.

3. Emissions to land/solid waste

In the normal undertaking of our surveying and associated services there are no emissions to land/solid waste.

4. Energy Usage

Other than travel to and from site and general office requirements the normal undertaking of our surveying and associated services requires minimal use of energy.

5. Waste Disposal

Any waste produced, as part the normal undertaking of our surveying and associated services, is disposed of in accordance with current regulations. Waste is recycled where appropriate.
